

Turn an **eego**TM mylab amplifier into a mobile system

By simply adding the mobility pack!

Add a new dimension to your research by using **eego** mylab in mobile settings! Each **eego** amplifier, either part of a cascaded 128/256 **eego** mylab solution or a 32/64 **eego** mylab solution, can be used in mobile settings by adding a dedicated mobility pack. With the attractively priced mobility pack you can gain extra functionality and use the system wherever you like; in the mountains, on the road or around your lab while the subject is being physically active.

Get mobile with mobility pack!

Mobility pack consists of:

- 1 **Windows tablet, with pre-installed eego recording & review software**
- 2 **Backpack**
- 3 **2-year remote support, service & updates for eego sports**

Mobility pack
